

Rule Sektion NS

Rule 2016

2.0 Model classes

Group F2

F2-S original scaled ship models of submarines and diving vehicles with a minimum length of 500 mm

10.2.3 Extension

In the class **F2S** in addition to the driving test 4 diving maneuvers totally can be carried out on tour.

If successful, they will be valuated with 15 points each diving maneuver. **At most score** to be reached: 160 Pkt.

The diving maneuvers must be carried out twice between Gate 1 and 3 as well as between gate 5 and 1 during the driving course

- Diving: 5 points
- Emerging within the buoy triangle (figure 2b) 10 points
- Emerging outside of the buoy triangle 0 points

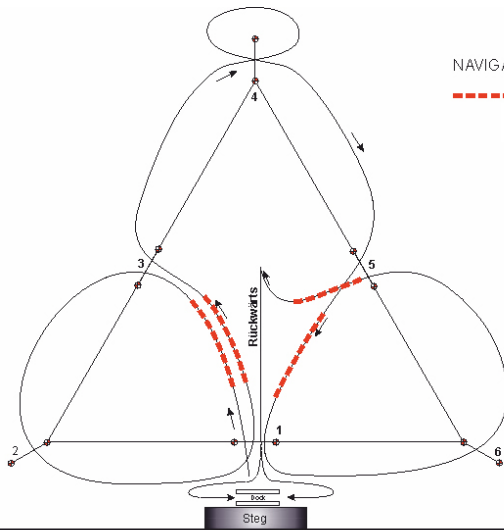

The diving maneuver is successful if the model stays under water for three seconds minimum.

After emerging within the triangle the model may carry out all driving maneuvers to pass through the next gate flawlessly. Thereby also reversing within the buoy triangle is allowed.

Technical equipment (antennas, periscopes, snorkels) can be fed in or removed on tour. That can only be applied for parts, which are also mobile on the original ship.
